
(a) Wind-speed distribution
Observed
V1 (fitted)
VAR(1) u/v
VAR(1) + diurnal
Density
Speed (m/s)
(b) Gust excess (gust - sustained speed)
Density
Gust excess (m/s)
(c) Hour-to-hour direction change
P(change > x)
|Delta direction| (degrees, wrapped)
(d) Wind-speed autocorrelation
ACF
Lag (hours)
